Rajkumar M

As a goal-oriented developer with a wealth of proficient experience, I bring to the table a versatile and promising skill set. My expertise spans across various programming languages, blockchain technologies, and web development. I excel at self-management in independent projects while also thriving in collaborative environments as an integral part of a development team.

06/2017 - 04/2018,   *90%*

WORK EXPERIENCE

Frontend Developer
PlayWithBot

03/2023 - 04/2023,   *chennai*

Achievements/Tasks

- To developing a video uploading page with video description functionality for an online teaching platform. I have use Next.js and Editor.js for this project, and I believe it would be a valuable learning experience to collaborate with an intern team.

- I am interested in working alongside other intern students, and I find it truly wonderful to collaborate on a project together

SKILLS

C basics   Java   Javascript   Ethereum

Blockchain technology   mysql   Tailwind css

ReactJs   Solidity   Nodejs

PERSONAL PROJECTS

FUNDRAISING WEBSITE USING BLOCKCHAIN

- This website is dedicated to eradicating fake fundraisers and the opaque practices of traditional fundraising platforms. We prioritize transparency and fairness, ensuring that every donation goes directly to the intended cause without any middleman fees.

- Using cutting-edge technologies like React.js, Tailwind CSS, Ether.js, Node.js, and Solidity on the Ethereum blockchain, we've created a platform that's both secure and user-friendly.

Portfolio using ReactJs

- This Is a portfolio website designed to showcase the personal qualifications and information of an individual. It serves as an online platform for presenting the person's skills, experiences, and achievements in a professional and visually appealing manner.

- This portfolio is developed using React.js and CSS to create an elegant and responsive web presence. It also incorporates Email.js to enable seamless communication and interaction, making it easy for visitors to get in touch.
